# A Place Of Healing

AN EATING DISORDER RESOURCE CENTER

## OUR MISSION:

To raise awareness and provide educational resources and professional referrals to the Northeast Tennessee Region on the topic of eating disorders, disordered eating, and related body issues.

## YOUR SUPPORT WILL HELP A PLACE OF HEALING:

- 1) Raise awareness that eating disorders are serious illnesses, not lifestyle choices.
- 2) Provide accurate information to medical, educational and/or business communities.
- 3) Direct people to potentially life-saving information and resources about eating disorders.

## DID YOU KNOW?

Nearly 20 million women will suffer from an eating disorder at some point in their life.

Anorexia has the highest mortality rate of any mental illness.

Females with anorexia between ages 15-24 are 12 times more likely to die from the illness than all other causes of death.
